

## **VACANCY NOTICE**

### **WEB AND MULTIMEDIA DEVELOPER**

EUMETSAT is Europe's meteorological satellite agency. Its role is to establish and operate meteorological satellites to monitor the weather and climate from space - 24 hours a day, 365 days a year. This information is supplied to the National Meteorological Services of the organisation's Member States in Europe, as well as other users worldwide.

EUMETSAT also operates several Copernicus missions on behalf of the European Union and provide data services to the Copernicus marine and atmospheric services and their users.

As an intergovernmental European Organisation, EUMETSAT has 30 Member States (Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, The Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom).

EUMETSAT is now inviting well qualified candidates from its Member States to apply for the following post:

**POST:** Web and Multimedia Developer

**LOCATION:** Darmstadt, Germany

**DURATION  
OF INITIAL  
CONTRACT:**

The initial contract will be of 4 years' duration, with subsequent 5 year contracts being awarded thereafter, subject to individual performance and organisation requirements. There is no limit to the amount of follow-up contracts a staff member can receive up to the EUMETSAT retirement age of 63 and there are certainly opportunities to establish a long career perspective at EUMETSAT.

**BACKGROUND:** Reporting to the Communications and Outreach Manager of the Strategy, Communication and International Relations Division (SCIR), the Web and Multimedia Developer will be responsible for supporting the continuous development of EUMETSAT's websites and producing data visualisations.

**DUTIES:** The main duties of the post will be as follows:

- Support the development of EUMETSAT's websites (e.g. producing site maps, wireframes and prototypes) in close interactions with the internal owners of the websites and providers of information contents;
- Develop and maintain interactive website features;
- Develop computer generated visualisations using remote sensing products for EUMETSAT's website and social media channels;
- Support and coordinate special EUMETSAT initiatives (e.g. development of microsites, ad banners, web streaming, interactive content, etc.);
- Support online activities promoting EUMETSAT contributions to the EU Copernicus Programme;
- Coordinate the development of videos for EUMETSAT's online channels;
- Support management meetings for web steering and development projects;
- Provide quarterly web and social media analytics.

**QUALIFICATIONS:**

A relevant university degree or equivalent experience.

**SKILLS AND EXPERIENCE:**

- Extensive experience developing successful websites, preferably in a scientific/technical and international environment.
- Knowledge of current web design and user experience (UX) best practices;
- Experience in visualising of remote sensing products and developing visualisations would be advantageous;
- Demonstrable experience with relevant graphic design/ visualisation tools (e.g. Adobe Creative Cloud and Premiere, Apple Final Cut Studio, Microsoft Visio, Maxon Cinema 4D and Planetside Terragen etc.);
- Experience with a variety of web content management systems (e.g., Oracle UCM, WordPress, LifeRay etc.);
- Excellent interpersonal and communication skills;
- Ability to work in a team, but also autonomously against set targets.

The official languages of EUMETSAT are English and French. Candidates must be able to work effectively in English and have some knowledge of French.

**CLOSING DATE: 16 September 2018**

Interviews are tentatively scheduled for week 40/2018.

**Applications in English or French should be sent via our online form (attaching curriculum vitae and covering letter quoting Reference VN(18)45) at**

**[www.eumetsat.int](http://www.eumetsat.int)**

This post is graded A1 on the EUMETSAT salary scales. The minimum basic salary for this post is EURO 4,393.58 per month (net of internal tax) which may be negotiable on the basis of skills and experience. The salary scale provides for increments on the anniversary of taking up employment, and scales are reviewed by the EUMETSAT Council with effect from 1 January each year. In addition to basic salary, EUMETSAT offers attractive benefits. Further information, including salary details, is available on the EUMETSAT web site.

**EUMETSAT is committed to providing an equal opportunities work environment for men and women.**

**Please note that only nationals of EUMETSAT Member States may apply. The EUMETSAT Convention requires that Staff shall be recruited on the basis of their qualifications, taking into account the international character of EUMETSAT.**
